Perfex CRM Development Company

Custom CRM Solutions, Module Development & Integrations

Perfex CRM – Tailor Your CRM, Transform Your Business

In today's competitive business environment, ready-made CRM platforms rarely fit unique business models.
That's where **Websicon Infoworld Pvt. Ltd.** comes in—offering **bespoke Perfex CRM development services**, ensuring your CRM is fully aligned with your operations, workflows, and customer experience goals.

We help businesses **customize Perfex CRM, build custom modules, integrate with third-party tools, and automate processes**, giving you a CRM that doesn't just manage data—but drives results.

Why Choose Perfex CRM?

Perfex CRM is a robust open-source CRM built on **PHP CodeIgniter**, offering an ideal solution for:

- Lead & Client Management
- Proposals, Invoices, and Payments
- Project & Task Tracking
- Staff Management & HR
- Support Ticketing System
- Custom Module Development

Its **developer-friendly architecture, scalability, and cost-effectiveness** make it a preferred CRM for SMEs, startups, and service providers globally.

Our Perfex CRM Development Services

🎯 Perfex CRM Customization

Modify existing modules, user interfaces, workflows, or permissions to suit your business processes.

🔧 Custom Module Development

We create business-specific modules like Inventory, HR, Booking Management, Client Portals, or anything your operations demand.

🔗 API & Third-Party Integrations

Seamlessly connect Perfex CRM with payment gateways, WhatsApp, SMS, email marketing tools, ERP systems, Zoom, and more.

⚙️ Workflow Automation & Triggers

Automate follow-ups, lead nurturing, invoice reminders, and custom notifications.

🗂️ Data Migration & CRM Setup

Efficiently migrate data from your old CRMs like Zoho, Salesforce, or spreadsheets—ensuring no data loss.

📊 Reporting & Dashboard Customization

Enhance Perfex CRM's reporting capabilities with custom dashboards, KPIs, and graphical analytics.
